Non-use Conflict Minerals Policy

由於剛果民主共和國(DRC)的礦業掌控在某些利益集團手中, 並因利益衝突帶給當地嚴重的問題, 包括武裝衝突及人權侵害, 並影響鄰近國家. 為避免使用、進口來自剛果, 或礦產來源為剛果民主共和國及其鄰國 (安哥拉、布隆迪、中非共和國、剛果共和國、盧旺達、南蘇丹、坦桑尼亞、烏干達和贊比亞等) 的衝突金屬, 籍此減少人權侵害的事件發生, 建立健鼎不使用衝突礦產政策:

健鼎目標是不購買用於資助剛果民主共和國武裝衝突的礦產物料,這些衝突礦產包括但不限於金(Au)、鉭(Ta)、鎢(W)、錫(Sn)金屬.

我們認為“無剛果民主共和國衝突”不應意味著“無剛果民主共和國”. 我們積極參與并支持客戶的無衝突礦產政策, 我們制定負責任的採購礦物方案,并加強供應鏈的培訓, 教育和管

健鼎行動:

- ★ 要求供應商建立衝突礦產管理機制, 以確保產品中所含金屬不是來源於資助剛果民主共和國武裝衝突的礦產, 並向其上游廠商提出同樣的要求;
- ★ 凡供應含金屬之物料供應商需簽署《無衝突金屬宣告書》;
- ★ 所供應物料成份中含金(Au)、鉭(Ta)、鎢(W)、錫(Sn)時, 供應商需填寫 CFSI_CMRT 調查表以揭露該金屬之熔煉廠資訊;
- ★ 供應商需使用 EICC CFSP 認證之合格熔煉廠;
- ★ SQE 對供應商進行衝突礦產相關稽核, 確保供應商符合健鼎衝突礦產管理要求;

Non-use Conflict Minerals Policy

As many of Congo's mines are controlled by interest parties that are causing serious issues in the region, such as armed conflict and the violation of human rights, and have influenced surrounding countries. To reduce violation of human rights and in order to avoid either using and importing "conflict metals" from Congo and adjoining countries(Angola, Burundi, Central African Republic, Republic of the Congo, Rwanda, South Sudan, Tanzania, Uganda, and Zambia etc.) which illegally taxed on trade routes through surrounding countries, TRIPOD establish the policy of non-use of conflict minerals:

It is TRIPOD's goal not to purchase product materials containing minerals whose sale financed armed conflict in the DRC, the minerals including but not limited to gold (Au), tantalum (Ta), tungsten (W) and tin (Sn) metals.

We believe being "DRC Conflict-Free" should not mean "DRC-Free". We actively participate in and support our customers' Conflict-Free Policy. We develop programs for the responsible sourcing of minerals, and training, education and management of our supply chain.

Tripod Actions

- ★ Suppliers are required to establish conflict mineral management system to ensure that the metals contained in the products are not from the mines whose sale financed armed conflict in the DRC, and suppliers shall do the same to sub- suppliers;
- ★ Suppliers who supply metal materials shall sign back the form Declaration of Metal Conflict-Free
- ★ Suppliers are required to fill in the CFSI_CMRT when the supplied materials contain gold (Au), tantalum (Ta), Tungsten (W) and/or Tin (SN).
- ★ Suppliers are required to use EICC CFSP certified Smelter
- ★ SQE carries out conflict minerals related audits on suppliers to ensure that suppliers meet the requirements of TRIPOD conflict minerals policy;
